Title of book: Princess Pigsty
By Cornelia Funke

Book Review: I have many favourite books. This is one that I like by one of my favourite authors.

Princess Isabella is bored by the life of a princess. When she refuses to retrieve her crown from the goldfish pond where she threw it, her father, the King sends her to work in the kitchens. She finds it very interesting there and still refuses to fetch her crown. So the King sends her to the pigsty next. He’s sure she’ll want to be a princess after that! Read the story to see whether Isabella and her father can find a compromise to solve their disagreement.
